

HAITI

MAKE A CONTRIBUTION.

Before the earthquake...

Haiti was already the poorest country in the Western Hemisphere.

- ⇒ The unemployment rate was at 95%.
- ⇒ More than half of the population lived on less than \$1 a day.

Life was beyond hard.

On January 12, 2010 when the earthquake shook this impoverished nation, an already harsh life became nearly impossible .

Leogane, a city of 100,000 people was at the epicenter of the quake.

- ⇒ Over 80% of the structures in the city collapsed.
- ⇒ Over one third of the population perished.

This level of destruction is hard to even comprehend.

Right now we need your help.

Will you consider making a contribution to help purchase building materials that will help us provide new homes for families. 96% of your donation will go towards buying building materials and hiring Haitian workers.
