

HAITI

GO ON A MISSION TRIP.

Before the earthquake...

Haiti was already the poorest country in the Western Hemisphere.

- ⇒ The unemployment rate was at 95%.
- ⇒ More than half of the population lived on less than \$1 a day.

Life was beyond hard.

On January 12, 2010 when the earthquake shook this impoverished nation, an already harsh life became nearly impossible .

Leogane, a city of 100,000 people was at the epicenter of the quake.

- ⇒ Over 80% of the structures in the city collapsed.
- ⇒ Over one third of the population perished.

This level of destruction is hard to even comprehend.

Right now we need your help.

Our first step is to help the families from Leogane move the rubble off their land. Please consider joining us on this upcoming mission trip.
